Omni-Channel Protection

Defend all eCommerce transactions with our patented tokenization solution. No matter where the transaction orignates, it will be fully secured and seamlessly integrated.

Payments Made Simple.

Integrating with OnePay gives your customers direct access to our portal.

Features to Love.

Powerful Processing

The OnePay platform comes standard with all of our payment acceptance products, providing you with the power to securely manage payments and view full transaction lifecycle.

P2PE Terminal

Our plug-and-play terminal secures every transaction with a powerful combination of point-to-point encryption and tokenization, so cards are accepted with peace of mind.

Virtual Terminal

Transform your computer into the most powerful POS system on the market. Securely accept credit/debit cards and eChecks by keying in cardholder information or using a variety of device options.

Mobile

Extend the benefits of the OnePay platform to a mobile device with our native iOS and Android app for the ultimate on-the-go-experience.

We've Got the Support.

From activation to daily inquiries, we've got you covered.
